## ABOUT ME

My name is Noureddine El Nimir, a student at Thomas More in Geel, currently entering my third and final year. I'm passionate about programming, especially in C# and C++, and I enjoy creating small games in my free time just for fun. I thrive in team environments, enjoy meeting new people, and am always eager to ask questions and learn.

## WORK EXPERIENCE

- 2025      **OVI NV. - ADMIN ASSISTANT | OLEN**  
I returned to OVI NV. for work, but this time in an administrative role on the computer, digitizing paperwork and starting to work with an ERP system.
- 2024      **FOX - WAREHOUSE WORKER | HERENTALS**  
In this job, I switched roles completely and worked as a warehouse worker, as I wanted to look for a job more related to IT.
- 2023      **WELEC - ELECTRO-TECHNICIAN | WESTERLO**  
I was 17 at the time, so I continued working in electrotechnics, this time with Welec, a company focused on industrial electrotechnicians.
- 2022      **OVI NV. - ELECTRO-TECHNICIAN | OLEN**  
I started working at 16 years old. At the time, I wasn't sure what I wanted to do yet, so I worked as a electro-technician in the food industry.
