

NOUREDDINE EL NIMR

Junior Application Developer - C# / .NET / Angular

+32 486 71 55 21 | elnimr.nouredine@gmail.com | Geel, Belgium

LinkedIn: [Profile](#) | GitHub: [Profile](#) | Portfolio: [Portfolio](#)

PROFILE

Applied Computer Science graduate (Application Development, Thomas More Geel) with hands-on experience in C#, .NET, Angular and React, built through both coursework projects and an ERP development internship. Comfortable working across the stack, from building a WinForms tool that parses barcode data from a live hardware scanner, to configuring and testing business logic in an enterprise ERP system. Looking for a junior developer role where I can focus on building software rather than functional consulting.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET, Angular, React, PHP, Python (pandas)

Data & Tools: SQL, Git, BPMN process modelling

ERP / Business: Microsoft Dynamics 365 Business Central, ForNAV

Other: Next.js, TypeScript, Tailwind CSS

PROJECTS

Chatbot | Personal project - C# / ChatGPT API

- Project focused on developing a chatbot powered by the ChatGPT API Integrated directly into Microsoft Teams.
- Design a conversational interface that guides users through a complete bicycle rental flow.

Appie's Legobib | Angular / .NET - built for Bricks & More, in collaboration with dotNet lab

- Placed top 3 of 9 teams. Full-stack web application built with Angular front end and a .NET back end.

Developer Portfolio | [Portfolio URL](#) - Next.js, TypeScript, Tailwind CSS, Framer Motion

- Personal portfolio site showcasing projects and internship work, including custom UI details such as a spotlight hover effect and a smooth custom cursor.

WORK EXPERIENCE

Application Development Intern | Van Roey

2026

- Configured and tested Microsoft Dynamics 365 Business Central for a live client implementation, including inventory posting setup, lot traceability and assembly order reservations.
- Designed ForNAV report templates including FIFO logic and conditional formatting for client-specific documents.
- Wrote a Python (pandas) script to automate part of a client data migration.
- Investigated and documented change requests and process workflows (BPMN), working directly with client stakeholders and internal reviewers.

Administrative Assistant | OVI NV, Olen

2025

- Digitized paper-based administrative processes and supported day-to-day data entry in an ERP system, improving record accuracy and processing speed.

Warehouse Worker | FOX, Herentals

2024

- Took on a warehouse role while actively pursuing a shift into IT-focused work.

Electro-Technician | Welec, Westerlo

2023

- Worked on industrial electrotechnical installations as part of an industrial engineering team.

EDUCATION

Bachelor, Applied Computer Science - Application Development | Thomas More, Geel

2023 – 2026

Electro-Technician | Sint-Jozef, Geel

2017 – 2023

LANGUAGES

Dutch: Native
